

## LONG YEARS AGO

June, 1904

The machinery for the sash and door factory is expected to arrive about July 1st.

This part of the district was visited by a hailstorm Sunday evening. No damage was done.

Hunsberger and Atkins are unloading a J.I. Case engine and separator today.

A few of our respected citizens went fishing in the Fallen Timber and had fair luck. One of the party caught a trout 21 inches long.

Alex Bouck has gone to Lethbridge to hunt up his cattle which were left behind.

For sale—First-class ½ section, 4 miles from Didsbury. \$650 per acre.

A.E. Cross of the Calgary Brewing Co. has donated a \$100 cup for play in the Alberta Baseball League.

## RUGBY A.F.U. NOTES

Twenty members attended the May meeting of the Rugby A.F.U. local at the home of Mr. and Mrs. O. Thompson. The next meeting will be on June 10, at the home of Mr. and Mrs. Emil Dupont.

**A.F.U. Convention At Crossfield**  
There will be an A.F.U. convention at Crossfield on June 25 in order to acquaint you with direct action, amalgamation and the collection of dues through the municipalities. Come and voice your opinions.

**Farmers' Do you want a holiday?**  
Then attend the Farmers' picnic sponsored by the Rugby A.F.U. Local on June 21. Further announcements will be made later.

## WHEAT SEEDING NOW COMPLETED; RAINS THIS WEEK A BENEFIT

Wheat seeding in the Didsbury district has now been completed, and the dry spring has enabled all farmers to go ahead with spring work without interruption.

Course grain seeding on many farms is also completed, although many farmers have waited for weeds to come up before putting in their oat and barley seed.

Early sown grain has germinated well and in some cases is from three to four inches high. Later sown crops, however, are in need of rain to ensure an even germination of seed.

Rain is urgently needed over the entire district. Good showers have fallen west of the Little Red, but elsewhere the moisture situation could be improved if the district is to produce a bumper crop. Gardens, in particular, are badly in need of rain at the time.

While the district is experiencing one of the driest springs on record, other parts of the province are really suffering from lack of rain. Fields in the southern part of the province in particular have blown so badly that considerable re-seeding had to be done. Apart from this the growing grain is not any further advanced than in the Didsbury district, with prospects of a crop very remote in some sections unless the south gets considerable rain within the next three weeks.

Since writing the above, skies clouded over Tuesday morning and a good heavy rain fell for a few hours, gladdening the hearts of local farmers in particular.

## HOME ECONOMICS CLASS DEMONSTRATION MAY 31

The Home Economics classes of the Didsbury school, under the direction of Miss Willison, will again show the work they have done during the year. This demonstration will take place next Friday, May 31st, from 2:30 to 5 p.m. There will be a charge of 25 cents for tea, the proceeds to be given to the Red Cross.

All who are interested in this work are cordially welcome.

## LONE PINE W.I. PICNIC DRAWS BIG CROWD ON VICTORIA DAY

The Lone Pine W.I. picnic held on May 24th was one of the best for some time, the day being ideal. A very large number of children and older people from Burnside, Baneroff, Jutland, Selberville and Poplar Creek, as well as Gore and Didsbury, were on hand and all enjoyed the ball games and a visit. There was a good supply of ice cream, thanks to Mr. Worde of the Crystal Dairy, who was successful in getting it for us. There was a variety of candies, corn, bananas and watermelon. Last but not least a picnic spread was set out and, believe it or not, there were a few old kids.

In the sports, Jutland won, playing with a team from Baneroff and Selberville, the score being 14-2.

A team from Poplar Creek played of Burnside's team, the former winning 11-0.

Then there were races for all ages of children, including three-legged and the dash, and the afternoon passed much too quickly.

The dance in the evening went the limit. It was said that there was the largest crowd ever to attend a dance in the Lone Pine Hall. The Rocky Mountain Rangers supplied the music.

Rev. Dowell has just received his certificate from the Technical school. Rev. put in 588 hours and of a possible 600 hours, and got through with splendid marks.

Mr. Steeves called on Thursday evening at the home of Fred Metz for his daughter, Miss R. Steeves, to take her home for the holiday week end.

Mrs. Dowell was an Olds shopper last Saturday while Evelyn had an appointment with the dentist.

Last Wednesday Mrs. Brander, Mrs. Schumacher, Mrs. Bob McCulloch and Mrs. Dennis Jenkins all gathered at the Lone Pine Hall and prepared the ball diamond for the picnic. The ladies said it was so cold they planned for a game of Fox and Goose in the sun. But the weather man obliged and the 24th was warm, 80 degrees above.

Mr. and Mrs. Harold Shells spent Sunday visiting with Mr. and Mrs. Kenneth Taylor at Acme. Mrs. Taylor (nee Margaret Mowser), well known in Jutland district, has a daughter.

Miss Marjorie Burns of Calgary spent the holiday at her home and attended the Lone Pine picnic.

Miss S. Zook of Didsbury attended the Lone Pine picnic and set a side within about five miles of town, and then walked to Didsbury. Miss Zook says walking certainly was not crowded.

The Musical Festival which was held at the East Carstairs hall on Thursday last had the following schools taking part: New Bonshaw, Pakenovort, Grand Centre, Roselund, Gore, Jutland, Baneroff and Burnside. As this festival was on a non-competitive basis there wasn't any standing ovation. It was to bring out the qualities in the pupils and to move them an idea of how other pupils could do the same sort of entertainment; also how differently each pupil met their audience.

Mr. Crisno, the inspector, had the performance to go the wrong way to the festival and almost missed the morning session.

Ralph Odden of Lethbridge is visiting with his sister, Mrs. Harold Shells, for a few weeks. Ralph says lack of moisture in the Lethbridge district is serious.

## \$1950.00 DONATED TO RED CROSS IN THE RECENT CAMPAIGN

The campaign of the Didsbury branch of the Red Cross Society has been brought to a close and final figures show that a total of \$1950 has been collected to date.

Last year nearly \$6000 was collected in the drive.

Following is the final list of those who donated to this worthy cause:

Leavens, Alma \$2; Clarke, Wm. \$1; Stringer, E.M. \$1; Janzen, Pete \$2; Jones, Andrew \$1; Vickery, Gladys \$2; Flanagan, Chris \$2; Ticho, G.S. and family \$10; McCaig G.E. \$2; Smith, W.M. \$5; Liesemer, El \$10; Bruce, William \$10; Nevalis Co-Op Dairy \$10; Nevalis Co-Op Service Station \$5; Nevalis Co-Op Store \$5; Shultz, Kenneth \$2; Shultz, W.P. \$5; Hooper, Stewart \$5; Fulkert, Walter \$5; Fulkert, W.J. \$5; Phillips, O.T. \$1.75; Phillips, E.O. \$1; Parker, B.T. \$5; Schneider, Alex \$5; Evans, Wm. and family \$10; W.E. Birdsell \$5; J.M. Hooper \$5; H.M. Reiber \$2; E. Higgins \$2; Mr. and Mrs. A. L. H. Myers \$10; Mrs. Molness \$5; A.E. Provost \$5; Oscar Arthur \$5; Mr. and Mrs. W.J. Schellert \$5; Rex Gale \$5; Mrs. Granite \$5; Mrs. Sam Elliott \$2; Mrs. Teal Weber \$2; E. Hughes \$5; J.W. Braun \$2; Geo. Brown \$1; Mr. and Mrs. H.L. Hayne \$10.

## BURNSIDE NEWS NOTES

Mr. Jackson, the sheep shearer from the west district, came out to shear in this area on Saturday. He commenced at Mrs. Wood's farm.

Sandy Brander journeyed to Calgary on the southbound bus on Thursday.

Don McKenzie, of Coronation, spent the holiday at the Ernie Culbert's home.

Mrs. Emily Hunter, of Calgary, spent the week end with her son and his family and took in the picnic at the Lone Pine Hall on the 24th of May.

Mr. and Mrs. Lee Persinger, of Calgary, Sunday guests at the home of their daughter, Mrs. Ivor Weber.

Gilbert Huzgard and wife motored to Calgary last week to attend the funeral of Mr. Huzgard's mother, Mrs. Annie Huzgard, who died in Calgary Sunday, May 9th.

W. P. Schultz was a business visitor to Calgary last week.

Mrs. Bob McCulloch and Marie spent Sunday at the Brander farm. Dave Gough, who is attending school in Calgary, came home for the holidays.

Mrs. Sam Elliott and Mrs. Violet Ruthven were Sunday dinner guests at the home of Mrs. Howard Pross farm near Carstairs.

Mike Pace travelled south to Calgary on Thursday and Brian Peck, camp down from Edmonton for the holidays on Friday.

We hear that in the near future there is to be a picture show and dance every Friday night in Sunnyslope. A coffee and hot dog shop is also to be opened.

Several cars from the district attended the School Festival held at the East Community Hall, Carstairs. Some children were unfortunate in arriving late, due to the fuel pump refusing to operate. The festival was a great success.

A large crowd attended the dance at the Lone Pine Hall on May 24th. Every one says they had a splendid time.

Mr. and Mrs. Howard Charlton, Mr. and Mrs. Morris Charlton and Mrs. Geo. Campbell and family and Jean and Ray, Charleton were guests of Mr. and Mrs. Robert Eckel last Sunday.

## Freight Trains Crash In Didsbury 'Yard'

## FINAL MUSIC AND DRAMATIC FESTIVAL AT CARSTAIRS

The last Music and Dramatic Festival of the Olds Insectorator was held Thursday, May 23, in the East Community Hall, Carstairs, with nine schools participating, some of which were outstanding.

The adjudicators were Miss Haste for the musical numbers and Mrs. Stiles for the elocution. The competitive spirit was not dulled and all are looking forward to a greater and better festival effort next year.

## BRAKE TESTING CAMPAIGN AFFECTS LOCAL CAR AND TRUCK DRIVERS IN CITY

The Calgary City Council on recommendation of its Legislative Committee, has authorized the Calgary Safety Council to conduct a brake testing and safety campaign under the supervision of the Police Department, on the largest scale yet attempted in the City of Calgary, and to appoint qualified car-pools and service stations as official testing centres, where the owners and operators of motor vehicles considered in a safe mechanical condition may obtain official safety stickers for their windshields.

Every motor vehicle with safe brakes, lights, windshield wipers and horn, is officially labelled, the work of the Police Department in apprehending and prosecuting those who are operating unsafe vehicles to the constant danger of the public, will be greatly simplified.

To this end, easily-distinguishable windshield stickers have been printed for distribution by garages and service stations to operators of safe vehicles. These stickers, which are serially numbered, and each of which must be accounted for, may be obtained in Didsbury from Payne-Freeman Co.

A charge of 25c will be made by the Calgary Safety Council for each sticker in order to cover the costs of organizing and publicizing this campaign.

Local car and truck owners should have their brakes checked immediately and obtain a safety sticker. By doing so they can assure themselves of being able to drive in Calgary without the embarrassment of being stopped by Calgary police and ordered to have the check-up made.

## DIDSBURY HOSPITAL BIRTHS

Born at the Didsbury Municipal Hospital to Mr. and Mrs. Arthur Peterson of Didsbury on Wednesday, May 22, a boy.

To Mr. and Mrs. Wm. Sundholm on Saturday, May 2, a boy.

Tom Morris has installed a new air-conditioned refrigerator in the Didsbury Dairy and local customers are now assured of good cold milk when the delivery is made.

The regular meeting of the Didsbury Dairy Club will be held Saturday, June 1, at farm of Cliff Gibbs. Members will meet at Mr. Morris' at 11 a.m. and are asked to bring their own lunch.

The wrecking crew worked most of Sunday night and Monday, and in the evening had the engine on the side track back on its wheels. The engine on the train from the south presented a more difficult task but it was raised Tuesday afternoon and the wreckage has now all been removed.

## DIDSBURY CALF MEETING AT GIBBS FARM

The regular meeting of the Didsbury Dairy Club will be held Saturday, June 1, at farm of Cliff Gibbs. Members will meet at Mr. Morris' at 11 a.m. and are asked to bring their own lunch.

WORLD HAPPENINGS  
BRIEFLY TOLD

A prearranged wireless station, with 20,000 pieces weighing 2,000 tons, has been shipped from England to the East.

Manufacture of all cotton, cotton-tissue and macramé in the Union of South Africa stopped May 1, due to the wheat shortage.

Cuts of metal made from secret light alloys to give greater protection to soldiers have been tested by the British War Office.

Canadian flour mills produced more wheat flour in March than in any month since 1920, the Dominion bureau of statistics reported.

Adult Hitler's marriage certificate, private will and last political testament are on exhibition at the National Archives in Washington.

A German at Chiffre, Kent, England, who left a sheet hanging on a clothesline overnight, next morning found a 41-81-90 note had taken its place.

Viscount Alexander, Canada's new governor-general, has accepted the position of honorary president of the South Africa veterans of London.

An additional 30,000 girls to join the number already in the Women's Land Army are being sought by the British Ministry of Agriculture, along with 10,000 volunteer harvest men.

Gen. H. D. G. Crear was presented with the cross of Commander of the Legion of Honour in a simple ceremony at the French embassy in Ottawa by Count Jean de Dampierre, French ambassador to Canada.

## Thanks Forces

Field Marshal Montgomery Delivers Farewell Message to His Troops

Field Marshal Viscount Montgomery in a farewell message to the troops under his command recounted their achievements in fighting in Western Europe and their role in the control of Germany, describing them as a "magnificent team."

Lord Montgomery is relinquishing his command of the British Expeditionary Force in Germany to become Chief of the Imperial General Staff.

When I think back to the day I took over the 21st Army Group in January 1944 at that time getting ready to start its great adventure, I felt amazed at what has been achieved. Lord Montgomery's message said.

We crossed the Channel, won a great victory in Normandy, advanced through France, Belgium and Holland and after a winter of bitter fighting with a long line of communication, were rewarded by the unconditional surrender of our enemy. We had at last gained the long-awaited victory.

A new task then faced us. We had landed in a country where an organization known as civil affairs. When we entered Germany this name changed to military government.

Even that name is not so large as what we have recently withdrawn from any function of government.

With the invaluable help of civilians from England, men and women, we have gradually built up a control commission worthy of our country, which, working alongside the Army, Navy and Air Force, has successfully overcome so many of the initial problems and is marching forward with confidence.

Soldiers, sailors, airmen, civilians, men and women, we have all been in this business together. I would like to thank each one of you for the support you have given me in my task.

The great results that have been achieved have been due to the united effort of a magnificent team of which I think I can be proud to have been a member.

And so with a sad heart I say goodbye, wishing all of you success and return to England, whether it is now or later. The happy home you desire.

## Crystal Palace

Extensive Structure Is To Be Rebuilt With A Half-Mile Front

Plans are announced for a gigantic reconstruction of Crystal Palace to replace the one destroyed by fire in 1936.

A building with a half-mile front, containing a 500-foot tower at one end is planned. There would be 100,000 seats for 2,000 people, including a skating rink with 17,000 seats, a concert hall for 4,000 persons, an amphitheatre for 10,000 and a stadium for 100,000.

There will be indoor swimming pools, two lakes for rowing, an amusement area, restaurants, a cricket field and gardens in addition to parking space for 5,000 automobiles.

Plans call for a lake 1,000 feet by 100 and a total of 700,000 square feet for exhibition halls.

Architects Herbert Jackson and Reginald Edmunds won a prize of £2,000 (\$30,000) for the plans which were announced by Sir Harry Thompson, general manager.

The Rocky Mountains stretch from the hot deserts of New Mexico and Colorado to the Arctic.

—Canadian Army Photo.

Their wartime job coming to an end, the Canadian Women's Army Corps is being gradually disbanded. Following discharge Pte. Jean McDonald, Ogema, back in civvies after three and a half years in uniform, bids farewell to Sgt. Pay Glover, formerly of Kelvington, now of Regina.

Health  
LEAGUE OF  
CANADA  
presents  
TOPICS  
OF  
VITAL  
INTEREST

DENTAL DEFECTS NEED  
EARLY CARE

While the specific cause of dental decay has not yet been discovered, there have been revealed certain measures of control which, if universally followed out, would improve the teeth of the human race.

These are: early treatment and dental care, a well-balanced diet including a lessening of sweet and starchy foods and proper home care of the teeth and gums. Early treatment of dental defects will cut down costs greatly, because the filling of small cavities is insurance against extension of decay and ultimate loss of teeth.

Nutrition is very important. During the growth and development of the teeth, the body must be provided with foods containing sufficient mineral elements to build sound teeth. In this connection it should be noted that the crowns of some of the teeth begin to form before birth. Over-indulgence in sweets and starchy foods raises the incidence of dental decay.

The real foundation of dental health begins with children under school age. Even many two-year-olds suffer from dental decay, and it is certain that as children's teeth are destroyed, just so much wider becomes the field of dental trouble for our future adult population, and the cost of repair has more than doubled. Early treatment of dental defects of a child between the ages of six and 15 years cuts down the cost of that treatment to less than one-third of what it would cost to correct accumulated defects at the age of 15.

Early education in fundamental health rules is important. Recent research revealed that 50 per cent of two-year-old children, 70 per cent of three-year-old children and 80 per cent of five-year-old children suffer from dental decay.

Once decay has occurred the only cure for it is operative treatment by a dentist. It is too late then to prevent.

That dental health education is a necessity is revealed in a survey in the United States involving up to 20,000 persons. It is learned that 29 per cent of the people receive regular dental treatment, while 22 per cent could not afford to pay for it and 48 per cent, who are offered to pay for it but who, through ignorance, carelessness or neglect, were suffering from dental decay and diseased teeth.

The Canadian Dental Hygiene Council stresses that dental disease is a common disease which treatment alone cannot prevent. It emphasizes a continuous educational program which impresses upon all the necessity of prevention, proper nutrition, oral hygiene and the early correction of defects.

Science has not yet fully opened the pathway to complete prevention, and the specific cause of dental decay has not yet been discovered, and it is well to remember that the known measures of control can do but to improve our teeth. Sound teeth and a sound mouth, and their relation to a sound, healthy body should be a matter of public concern.

Hitler thought Sunday was his lucky day for invasion. His attacks on Poland, the Low Countries, Yugoslavia, Greece, and Russia all fell on Sunday.

## Found Old Purse

Young Girl Makes An Interesting Find In Her Own Back Yard

Eleven year old Dolores Fitzgerald of Washington, started for the grocery store to get for mother a loaf of bread and came back with \$1,000 instead. Here's what happened:

In her own backyard she found an old, discolored, leather pocketbook. She thought "Mom might want to see it," even though some of her seven brothers and sisters urged her to throw it away "cause it's so wet and dirty."

As Mrs. Annie Fitzgerald turned over the purse the contents dropped out: a pair of eye-glasses, gloves, string of beads and \$1,000 in bills in a bag.

Police located the owner, Mrs. Edna Sparrow. Dolores is going to get \$50 for her honesty.

Mrs. Sparrow told police a girl apparently had taken \$1,000 which had been in easy view in the purse, but had overlooked the \$4,000 secreted in the bag, before tossing the purse into the Fitzgerald's back yard.

## New Ration Books

Will Likely Be Issued During Week Of September 9

The first coupons in ration book number six will be good for the purchases of butter, meat, preserves and sugar on September 19, according to information received at the regional office of the Wartime Price and Trade Board.

Trade boards in book number five, now being used for the purchase of rationed food, commencing with valid Sept. 12. According to present plans the new books will be issued during the week of September 9, and it is likely that the program of distribution will follow plans used in other years when representatives of the Consumer Branch were responsible for much of the organization.

To Feel Right — Eat Right

## LIFE'S LIKE THAT

By Fred Neher

"Wonder where they get this stuff about the transportation problem being so bad. . . I had it stuck to myself all the way."

## REG'LAR FELLERS—Sweet Thought

## Portrait Sold

Artist Buys Individual Picture Of Winston Churchill For \$25,000

Douglas Chandler, the artist who sold a commissioned portrait of himself to paint the Big Three leaders at Yalta, disclosed that Dorcas Burch has bought his individual portrait of Winston Churchill for \$25,000.

The portrait, painted as a study to be incorporated in the larger Yalta picture, was said to have brought the highest price paid for a portrait by a contemporary artist.

Chandler said Burch bought the picture the day before Churchill left the country to return to England. The former British prime minister, who saw the picture, described it as a "masterpiece."

The artist said Burch intended presenting the picture to an American museum. Chandler, Chandler said, expressed pleasure that was to remain in the United States.

Chandler completed his study of President Roosevelt for the Yalta painting two weeks before the late President's death. This portrait remains in the artist's possession.

He said he hopes to go to Russia, possibly this summer, to paint Generalissimo Stalin. He said Stalin in correspondence with President Truman concerning the Yalta painting had expressed "good will and great interest" but no date for a sitting as yet have been arranged.

The Yalta painting was recommissioned by President Truman after Roosevelt's death. The painting when completed is to hang in the national capitol. Chandler's home is in Heatherford, Texas.

## Stamp Collecting

Has Become Big Business But Is A Pleasant Pastime

Collectors of stamps will remember with awe the collection of Philippe le Teneur von Ferrari, who died in Lausanne in 1917, and whose stamps had for some time been worth \$2,000,000. An envelope bearing two stamps sold for nearly \$5,000.

The Taping collection of 100,000 stamps and examples of postal stationery bequeathed to the British Museum was also one of the great collections of all time.

Collecting is big business now, and the United States leads the world in it. But it is still essentially a child's play, for the young in spirit if not in years. President Roosevelt in his spare time spent the last half hour of his day working with his stamps, and found in them the relaxation that permitted him to forget affairs of state and finally drop off to sleep.

Perhaps, waiving the expense which threatens to bring you to the verge of bankruptcy, you committed one of your wisest parental acts when you casually started your son down the rambling road and joined him in its vagrant pleasures. New York Times.

## RED CROSS CAMPAIGN

One in every four Canadians is a member of the Canadian Red Cross. Dr. F. W. Bentley, of Toronto, national commissioner, told a meeting of the society's central council. The society has more than 3,000,000 members, a record enrollment. Wartime contributions to the Canadian Red Cross exceeded \$50,000,000, he stated.

Seventeen different calendars are used in India.

WINONA STARLET — Spotted by a talent scout while acting in an amateur theatrical, lovely Dorothy Patrick, Winnipeg, is now in Hollywood after signing a movie contract with M.G.M. Recalling that such stars as Norma Shearer and Deanne Durbin are Canadians, the studio predicts a bright future for her.

## Shortage Of Barite

Canada Has Rich Deposits But Very Little Is Mined

Although Canada has some of the richest barite deposits in the world and uses thousands of tons of the ore every year in the manufacture of paint, paper and textiles, comparatively little is mined here. Before the war the bulk of Canada's requirements came from Germany and the United States, but today, with Germany out of the picture and the United States hard pressed to meet its own needs, manufacturers are finding it increasingly difficult to obtain supplies. One reason why barite is not mined more extensively in this country, according to mining men, is that Canada has no plants for processing the ore and no barium chemical industry. A secondary reason, they say, is that mining interest in Canada is focused upon the precious metals with the result that the average man knows little or nothing of the importance of commercial ores.

Experts advise planting about five seeds in holes about an inch deep, and 6 to 10 inches apart on the little mounds mentioned. Later when plants develop, in about two weeks time, actually thin to about three plants to each group. Keep weeds cleared away, watch out for bugs and to encourage early fruiting nip off end of vines when half a dozen melons or a dozen or so squash or cucumbers are on the way.

## The Heaviest Mail

Most Of Letters Received By U.N. Secretariat Are Eccentric

Two thousand communications a week pour into the harassed United Nations secretariat at New York, the letters, cards, telegrams, clippings and pamphlets offering a wide variety of reading matter. They are filed under three headings: Suggestions, political criticism, eccentricities. Eccentricities mail runs the gamut.

Most communications are in English or French, but it is not unusual to receive one in K'ip'ir, the so-called universal language.

Following is the text of one letter: "What is going to happen?"

### Pasteurized Milk

World's Finest Food Also Good  
Culture Medium

Milk, the best individual food known, nevertheless is a "Jekyll and Hyde," reports the Health League of Canada which is engaged in a campaign seeking compulsory pasteurization in the eight provinces presently without such legislation. Ontario is the only one with a compulsory pasteurization law.

Milk is the best food known but at the same time it is a culture medium for fermentative, putrefactive and virulent disease germs. It has been said that "unsafe" milk has been responsible in the past for more deaths than all other foods together.

"Unsafe" milk is unpasteurized milk. True, it is important that milk be clean, but even clean milk can be unsafe. Disease-producing germs in milk have their origin in diseased cows, milkers, milk handlers, carriers or people who have recovered from infectious diseases but still carry the germs in their bodies. It is obvious that even "clean" milk can become contaminated easily.

To be absolutely safe, milk must be properly pasteurized.

### SELECTED RECIPES

#### FLAKES SANDWICH BREAD

- 2 cups sifted flour
  - 3 teaspoons baking powder
  - 1/2 teaspoon salt
  - 1 cup sugar
  - 1 cup Grape Nuts Flakes
  - 1 egg, well beaten
  - 1/2 cup milk
  - 2 tablespoons molasses
  - 2 tablespoons melted shortening
- Sift flour once, measure, add baking powder, salt, and sugar, and mix again. Add flakes and mix. Combine egg, milk, molasses and shortening. Add to flour mixture, beating only enough to dampen all flour. Bake in greased loaf pan, 8 x 4 x 2 inches, in moderate oven (350 deg. F.) 1 hour, or until done. Cool. Wrap in damp cloth and store several hours or overnight before slicing.

#### CANADIAN HONORED

Dr. Frank E. Griffin of Toronto, specialist in industrial medicine, has been elected a director of the American Association of Industrial Physicians and Surgeons, first Canadian to be so honored. A specialist in his field for the past 15 years, and chairman of the Technical Committee of the Industrial Committee of the Health League of Canada, Dr. Griffin was appointed at the past-concluded annual convention of the American Association in Chicago.

"I'll be kind of nice to see England, Italy, and maybe Germany. Guess I'll be no trouble to get places with this pocket on, either. Sure, I like to travel. Been up and down and across the country from Alaska to Rio."

"Next of kin? Well, ... my mother, I guess. I didn't see her in twelve years. Or my brother, Leonard. But ain't what started me running, though times was plenty hard on that black prairie farm."

"Maybe you would say it was in the West ... the father, I guess, and that sort of thing. My old man just walked out one day when I was about six years old and Dave, your five years older, from that time on my mother was known as ... that phoney Mrs. Weaver. They didn't know Ma, though. She wasn't phoney. She was just plain Mary."

"I grant you getting a livin' from that rocky farm was tough. But Ma did it. She drove us kids without money. We was kept out of school spring and fall to help with seedin' and harvest. There was no time to go to bed or huntin' or anythin'. Not even time to read a good book. There was just no time to the nighthin' little chores Ma could dig up."

"Dave and me and Edna milked cows as soon as our legs were big enough to squeeze out the milk. We cleaned out barns and hauled straw. We dragged up firewood and sawed it endless. Dave was the quiet sort and never complained. I often got restless. But I guess I would have settled into the groove in time, like Dave, if it wasn't for the boys."

"Dave came right in to the house one early fall mornin' right in the middle of school. I was about fourteen, I mind. I was in the kitchen, and he was in the kitchen and could see at once Dave was uncommon excited."

"Ma said, 'What do you want now, Dave?' In an even voice, he said, 'There's a tramp in the barn. Ma and ...'

"Dave Weaver? Have you left your clothes just to tell me about a tramp in the barn? Go tell him to be on his way at once."

"But Ma ... He's awful sick. Ben there all night and see him. ... There was somethin' urgent in Dave's voice."

"Ma put on her sweater and went along with Dave, and I followed her. I tagged after, far enough he said so she wouldn't notice me. The man was lying in the wide driveway of the barn with the morning sun fallin' on him. He was long and thin. His face was covered with a thatch of reddish hair. It was plain to see he was pretty old. He didn't open his eyes but just moaned and groaned, clutchin' at his stomach and beamin' him from side to side. Ma walked over and stood lookin' at him for a long moment with the odddest expression on her face. Then she turned to Dave and said, 'He's at ease and get Father Bertold. And hurry! I believe he's dyin' ...'

"Dave got into the rickety old car and drove off at breakneck speed. Ma saw the 'stunder' there and for once forgot to scold."

"Get me the horse blanket," she ordered.

"I reached the blankets and spread them over the guy. I stuffed some hay into a grain bag and gave a pillow for his head. He seemed quieter after that. I suggested slowly that maybe a cup of tea would do him good. Before Ma could answer Dave came back with the priest."

"Father Bertold was a kind and gentle soul. He knelt by the horse, raised his head, easy like, and gave him a drink from a small flask."

"The horse opened his eyes, smiled crookedly and said somethin'. Then he saw Ma and he tried to sit up. No word came from his lips though you could see him strugglin' for speech."

"Father laid him down again and covered him with the horse blanket. A big sholder passed over his body and Father quickly made the sign and murmured an Ave ..."

"I stared with horrified eyes as the form of the horse grew rigid. I was only a kid and had never seen any one die. ... Father drew a corner of the horse blanket over the face that had held such suffering and now seemed all at peace."

"He didn't say who he was, Father?" I cried, my voice wobbly with awe and a kind of unexplained terror a kid is bound to feel in the presence of death."

"The priest raised his head and looked at Ma. I looked at her, too, and was surprised to see only bright spots of color high on her cheek bones. Her chin was tilted upward and there was a defiant gleam in her eyes. Father put his hand gently on my shoulder."

"His name was George Weaver,

### ATOMIC FISSION

May Provide Key To Search For The  
Fountain of Youth

Two scientists writing in a publication of the American Chemical Society said that atomic fission may provide the key to the age-old search for the fountain of youth.

Dr. Howard J. Curtis, Director of Biological Research at the Clinton Laboratories, Oak Ridge, Tenn., and Dr. Edgar J. Murphy, former head of pilot-plant operations, reported that the radiations produced by atomic fission appeared to speed up the processes of growing old in animals.

It may be possible to find ways and means of using correct dosages and proper applications of radiations to accomplish the opposite—that is, to extend the period of youth and effectively delay the inevitable symptoms and characteristics of old age, they reported.

Some types of radiation caused rats and mice to die of old age while still young, Curtis wrote. The effect was discovered in studies of the possible influence of the deadly rays on the bones of persons.

Animals exposed to prolonged radiation died within 10 to 30 days of a number of physiological changes, the scientists reported.

They concluded that "the problem of aging, which is just beginning to be attacked, undoubtedly will be addressed with the aid of these radiations."

### Potato Prices

Maximum Prices For New Potatoes  
Are Announced

Maximum 1946 prices for new potatoes, imported and domestic, were announced by the Prices Board. The announcement said practically no change from 1945 price will result, with increases varying from a quarter cent to a half cent a pound expected in the prairie provinces, the Maritimes, northern Ontario and Northern Quebec.

Maximum prices at the basing points—Toronto, Ont., and Vancouver—are the same as for last season. The maximum allowance of 40 cents a hundredweight for transportation from basing points has been eliminated, however, and this year's price throughout Canada will be the schedule price at the basing points, plus transportation costs to distributing centres from the closest point.

Imports from the United States are under special import permit, subject to approval by the Wartime Food Corporation, and this approval will be limited "for the present" to those areas having insufficient supplies of 1945 production to take care of consumer needs, the Board stated.

Present indications point to a heavy crop in the United States and it is anticipated there will be ample supplies available at prices which will permit distribution in Canada at ceiling prices until domestic production is sufficient to take care of requirements.

### A BAKING LOAF

Britain is to tighten her loaf of bread by a wheat-extraction rate of 90 per cent, as a temporary measure, Food Minister Sir Ben Smith announced at a hastily-called press conference in London. In March the extraction rate was raised to 85 per cent, compared with an average price for wheat of 75 per cent. Announcing steps to meet the world wheat shortage, he said output of biscuits and similar products will be reduced.

### Red Cross Parcels

Over Sixteen Million Parcels Were  
Sent From Canada

A total of 16,210,592 food parcels for prisoners of war were packed at the six Red Cross packing plants from the beginning of this year in January, 1941, until its final closing at the end of July, 1945, at a total expenditure of \$41,831,652, according to a report made by Harold H. Leitch, Chairman of the National Prisoners of War Parcels Committee, at the annual meeting of the General Council of the Canadian Red Cross at Toronto.

During 1945 the Purchasing Committee of the Society placed orders for goods to the value of \$12,147,227, bringing the total from September, 1939 to Dec. 31, 1945 to \$67,758,963. H. H. Bishop, Chairman of the National Prisoners of War Committee, reported. Those figures include orders placed for Canadian United Allied Relief Fund in 1945 and the British Red Cross for "repatriates from the Far East."

### Bomb Craters

Have Disclosed Many Interesting  
Evidence of Antique Life

Archaeologists examining bomb craters in Europe and Britain have discovered that many of the explosive uncovered important new evidence of antique life and culture. An American bomb landing at Pompeii, for instance, disclosed archaic terra cotta excavations, while a German bomb landing at Canterbury, England, led to the discovery there of a Roman city built around 43 A.D. This is fascinating. Even more fascinating, however, is the fact that we may all find ourselves living in an atomic bomb crater with the culture of the Dark Ages around us unless the International Atomic Development Authority becomes a reality, and soon. St. Louis Post-Dispatch.

### PART OF THE PRICE

During the war, says the London Times, over 35,000 officers and men of the Merchant Navy lost their lives in the task of bringing to this country, and taking to our Russian Allies, the good stores of war that alone could keep the cause of freedom alive, and in the other sea service, nearly 30,000 officers and men of the Royal Navy were killed in their defence, or in keeping the seas open for them.

President of Brazil Issues A Decree  
Cancelling Concessions

The powerful gambling industry whose tentacles extended through Brazil was crushed by a single blow from President Eurico Gaspar Dutra when he decreed its abolition in the entire national territory and cancelled all concessions for casinos, racetracks, lotteries and every form of games of chance.

President Dutra said that in banning the exploitation and practice of gambling he was acting "in the name of moral justice and religious tradition of the Brazilian people," against what had become a "social cancer."

The first immediate effect of his decree was to throw out of work no less than 20,000 persons employed in gaming establishments, and since each was estimated to have an average of three dependents it was said that nearly one million people were affected.

The Drive To Populate Little Has  
Gained Impetus

The drive to make Little Rock, Ark., has gained impetus with the birth of Jan Stephan Kuera and reports that approximately 30 of the anticipated 100,000 new residents have been found near Hamburg, Jan. only a few weeks old, is the first child born to a Little family in settled areas, and only about 18 children have been born in the area since the city was founded in 1880.

The Ministry of Information's "Weekly Bulletin," in reporting the finding of about 30 Little children near Hamburg, said only about 18 Little children had been located previously—most one or two at a time in scattered areas ranging from Germany to Slovakia.

Thirty or forty children still are missing.

### SMILE AWHILE

"Mary," said the mistress to her clumsy servant, "you break more china than you break more wages would pay for. How can we put a stop to this?"

"Well, m'm," replied Mary, "one way would be to raise my wages."

Albee: "How has your brother been since he got married?"

Odele: "Oh, well enough, but his wife treats him like one of those Great Gables."

Albee: "Meaning what?"

Odele: "She places burnt offerings before him every meal."

Bridgeman (at the first stopping place): "It's no use, Clara. We can't hide it from people that we are bride and groom."

Bride: "What makes you think that, George, dear?"

"Why, even the waiter has brought us rice pudding."

Jefferson had something the matter with his eyes, and told such a long tale of woe about them that his friend became really alarmed.

"I said so, chap," the latter exclaimed, "you ought to see an optician."

Recalling scenes in the last war, one veteran said: "I was lucky. I went through it all without a scratch."

"You were lucky, pal," said another. "In the trenches where I was we did nothing else."

Mrs. Jones barged into the grocery store and bristled asked: "Remember that cheese you sold me yesterday?"

Mrs. Jones: "Did you say it was imported or deported from Switzerland?"

"Don't you don't play circus? It's great fun. First you make a sadist ring—"

"But where would I get the sadist, dad?"

"Here's the way. Just cut some of the trousers into five-place lengths. And you can have all the sadists you make."

Jimmy: "Did you hear about the new boy down the block who hasn't all his toes on one foot?"

Johnny: "No. How many has he?"

Jimmy: "Five on one foot and five on the other!"

Sergeant: "Did you sleep well on your cot? I'm afraid it was a little hard and uneven, but—"

Cousin: "It was all right, sir. I got up now and then during the night and rested a little, you know."

I hear you're related to our wealthy philanthropist?"

"Definitely."

"How instant?"

"As far distant as he can keep me."

### REPEATING FLASH BULB

The Chemical and Engineering News says a repeating flash bulb that can be used several thousand times over for brilliant daylight quality photographic illumination has been developed. It looks like an ordinary projection lamp with a three-pronged incandescent base, but it contains a little glass coil, filled with the rare gas Xenon which does the business of providing the light. From a few yards away it would look as bright as the sun, and it gives all this light in one five-thirtieth part of a second.

## DIDSBURY NEEDS A SWIMMING POOL

With hot weather approaching the need is apparent for a modern swimming pool in Didsbury and the time has come when we should all get behind such a project and carry through until we get the desired results.

With a little community effort we can have a modern swimming pool in Didsbury without a large cash outlay. Such a project, however, would have to have the support of both town and district if it were to be a success.

Swimming is one of the best and most popular summer sports, and under proper supervision at all times provides a place for our young people to spend their leisure hours without the parents having to worry where they are, as well as for their safety.

Just recently the Red Cross Society has announced that wherever proper facilities are provided in a town they will put in a qualified instructor to teach the boys and girls how to swim and otherwise acquaint themselves with the knowledge of water sports.

The Didsbury Lions Club is now putting forth its effort to raise funds for the building of a swimming pool in Didsbury and while this club already has a substantial sum of money put aside for a swimming pool, the fund is far from being adequate to complete the erection of a pool.

The Lions Club is now arranging for an auction sale to raise money for the erection of a swimming pool. Their plan is simple; you are asked to donate something useful to the cause. Lions Club members gather up these useful articles of livestock, machinery, household goods, etc., and arrange to sell them by auction. All funds will be devoted to the swimming pool fund.

Get behind the Lions Club in its effort to provide a swimming pool for Didsbury. Donate generously to the auction sale, and when the time comes this summer to start actual work on the pool, you are again urged to be ready to lend a helping hand in your spare time.

We need a swimming pool—and we need it badly if we are to avoid accidents of drowning in the creek, such as was the case last spring, just north of town.

The town drunk tried to get to the lamp when she barged in, bed without disturbing his wife, "Hello, darling," he said cheerfully, but heard her coming downstairs the moment he shut the door. He made a dive for the library, reached for a book and was sitting under

the lamp when she barged in, "Hello, darling," he said cheerfully, but heard her coming downstairs the moment he shut the door. He made a dive for the library, reached for a book and was sitting under

"You did, did you?" said she, "Well, you just shut that valve and come up to bed."

## PRICE JUSTICE AND THE FARMER

(By H.G.L. Strange)  
The Hon. Humphrey Mitchell, Minister of Labour, has just issued an open letter to Canadian workers which shows how well the prices of agricultural products have been held down so that the workers could afford food. Mr. Mitchell shows that the prices of butter, eggs, sugar, bread and milk today average 46.5 per cent less than they were in the year 1920, after the first Great War. The Minister further informs labour that prices cannot be kept under control unless wages, too, are kept down.

Mr. Mitchell, however, omits one important figure in his statement which shows that wages, which govern the cost of the things farmers and others have to buy, have not been kept down; for the fact is that today, according to the official statistics of the Government, the average hourly rates of industrial labour have actually risen by 30% from the year 1920. So we see that while the prices of farm products, which labour enjoys, are today 46.5% lower than they were in 1920, yet the hourly wages that industrial labour has received are actually 30% higher than in 1920. This, of course, is an injustice to our farmers, and it is no wonder that farmers and their true friends are beginning to assert that farmers are justly entitled to price increases for their wheat and other products that will bring these prices somewhere near the level of the hourly wages now enjoyed by industrial labour.

## ALLOCATIONS ANNOUNCED OF WORLD SUGAR SUPPLY

Canada's per capita consumption of sugar this year will be maintained by an increased allocation in spite of a slight decline in the amount available for world distribution, it was revealed by the announcement of the sugar committee of the Combined Food Board representing Great Britain, Canada and United States.

The amount allocated for civilian consumption in Canada was set at 465,000 tons. The total supply available for Canada during 1945 was about 460,000 tons. The increase will meet the needs of returned members of the armed services in Canada.

The committee announced that 11,800,000 tons of sugar would be available for distribution this year in these sections of the world for which the Combined Food Board was responsible. This amount is a decline of 281,000 tons from the amount available last year. This decline occurred to world stocks in spite of an increased production in the Caribbean area.

The Warrenton News and Trade Board announced that the present ration schedule for sugar in Canada would be maintained.

## DAIRY SUBSIDIES TO BE CONTINUED

The Dominion Government has advised the Agricultural Food Board that subsidy on milk and milk products during the 12 months beginning May 1, 1946 will be continued on the same basis as last year.

The subsidy of 10 cents per pound of butterfat used in the manufacture of creamery butter and of 20 cents per 100 pounds of milk used in the manufacture of cheddar cheese will be paid throughout the year.

A subsidy of 25 cents per 100 pounds on fluid milk will be paid to producers in authorized areas from May 1, 1946 to September 30, 1946 and 55 cents per 100 pounds from October 1, 1946 to April 30, 1947 except in areas where it will continue at 25 cents.

For milk used in the manufacture of concentrated milk products and of milk sugar, subsidies will be paid at the rate of 15 cents per 100 pounds from May 1, 1946 to September 30, 1946. This will be raised to the winter level of 20 cents per 100 pounds at October 1, 1946.

"World Dominion" says that India's "living bomb" is T.B. Every minute 16 die of it. 1500 die annually. It is spreading south. Half the babies of India are born with it while their mothers work.

## HARMATTAN NEWS NOTES

We are sorry to hear that Joan Johnson, who a short while ago accepted a position at the telephone office in Olds, is now home for a rest under the care of Dr. Ruth Harvey.

A baseball game was held at the Harmattan Community Hall grounds on Sunday afternoon, opposition being supplied by the combined team of Eagle Hill and Waterside. The home team won by a score of 6-4.

Miss Doreen Armstrong was a week end visitor at home.

We see Howard Moore is the proud possessor of a new blue Mercury.

Many residents of the district attended the 24th of May sports day in Olds.

The annual track meet will be held at Harmattan on the 31st of May. Let's hope it doesn't rain that day and spoil it, even if the rain is badly needed for crops and gardens.

Norman Johnson has recently acquired a position on the John Olson farm north of Olds.

## U.K. WANTS LOTS OF CANADIAN EGGS

Poultrymen now have an idea of what the next two years hold in store for them, states the Current Review of Agricultural Conditions in Canada. The United Kingdom wants increased quantities of shell eggs. The current contract which expires on December 31, 1946 will be extended to cover 1,750,000 cases of shell eggs and 5,000 tons of dried eggs in 1947 (a total of 66.1 million dozen eggs at current basic prices). The United Kingdom is to furnish Canada with a return of 1946 (preferably October) an indication of the requirements of eggs in shell and in dried or frozen form during 1947.

Shell eggs are to be shipped during the months of September to May 15, 1947 inclusive, and more especially during the months from October to December inclusive. Owing to the difficulties in handling supplies in the United Kingdom during the summer months, Canada was requested to cease shipments of shell eggs by May 15, 1947, diverting the summer surplus to the production of sugar-dried eggs.

## WORDS ARE TRICKY

Words are tricky things. Three or four words arranged in one or another way may precipitate a war, a divorce scandal, or a riot at a christening. You must watch words closely when you put them into advertising or correspondence. You must consider their effect on the other fellow. There was a street feller once, back in our home town, who was selling couch medicine. And he said, "Thousands of persons would rise and acclaim the merits of Dopepine if they were alive to tell the tale today."

## SEEDS OF STRIFE

For more than a generation Alberta farmers have painfully and patiently built up their own marketing organizations to protect themselves and better their economic position. These farm organizations are built on a basis of service rather than profit—like the Ontario Hydro Electric, the post office, and the various municipal enterprises.

The Income Tax Payers' Association has been conducting an intensive, widespread and expensive propaganda campaign to induce the Canadian government to impose federal corporation taxation on these service organizations. The evidence available would suggest that the Income Tax Payers' Association is really a creation of powerful Canadian financial institutions and corporations. The purpose of the campaign is to effectively cripple farmers' organizations as well as other enterprises built up by the people for their own use.

The under-sighted Alberta farm organizations are keenly resentful over the incessant attacks inspired by the autonomy of wealth operating through the Income Tax Payers' Association. It is felt that Alberta people are being misled and presented with an unfair picture of the true situation.

Alberta farmers have in the past generation produced billions of dollars worth of new wealth. The bulk of this has been drained off to central Canada (Ontario and Quebec). These two wealthy provinces contributed 77 per cent of all taxes collected by the Dominion (statement made by Premier Pross of Ontario). It is thus plain that Ontario and Quebec corporations will be the chief beneficiaries if farm co-operative organizations are made subject to federal corporation taxes. Individual tax payers will benefit little, if any.

Business interests cannot afford to endure in a life and death struggle with the farm people of Alberta. Fighting people have everything to lose and nothing to gain in business with farmer co-operatives. What the Income Tax Payers' Association is now doing is building up an enemy which might well create the very kind of atmosphere in which business can not prosper or perhaps even survive.

Alberta people should support farmer co-operatives whose objective is better living conditions on Alberta farms.

## BERGEN NEWS NOTES

Barry McCue, of British Colum-  
bia, made a short visit with home  
folks last week.

Mrs. Hickok, George, Leona,  
Evelyn and Helma Olson, all of  
Three Hills, visited Bergen on  
Mother's Day.

The Ladies' Aid met at Mrs.  
Scott's on Friday to do some quil-  
ting and make other beautif-  
ful articles.

"God tempers the wind to the  
shorn lamb," but the newly born  
lambs were shivering last week.

We had two more fires, one on  
the west half of 4-32-6-5 and the  
other on Mel Erick's timber. It  
took about twenty men with shov-  
els, axes and "weigh jacks" to get  
the fires under control. A wagon,  
harness and some saw logs were  
in danger as well as a mill and  
some lumber.

Bob Stevens is out to put in his  
crop on S.W. of 33-31-6-5.

A son was born to Mr. and Mrs.  
Pall Erickson at Olds last Satur-  
day. Congratulations are due "She-  
boy-gen".

Dote Hendrix has purchased a  
half-ton truck.

## MELVIN NEWS NOTES

Best wishes for a speedy recov-  
ery are extended to Mrs. Frank  
Herbert who is seriously ill in a  
Calgary hospital.

At the home ball game Sunday  
afternoon, Melvin succeeded in  
beating the Innisfail team 10-4.  
Next Sunday, June 2, Bowden will  
play a return schedule game at  
Melvin.

Clare Youngs is home for holi-  
days after his two week stint with  
the navy. Clare travelled up the  
west coast on a naval training ship  
to Alaska. He wasn't actually sea-  
sick, but—it wouldn't have taken  
much more! It was a swell trip  
anyway and we really envy him.

Elmer Cowdy, who underwent  
a serious operation in the Holy  
Cross, is improving nicely.

Mr. and Mrs. Ray of Carstairs,  
visited with the daughter Mrs.  
Ross Youngs on Sunday.

## NOTES FROM THE WEST

The Women's Institute held their  
executive meeting at the home of  
Mrs. Eckel Saturday last with all  
Institutes represented with the ex-  
ception of Cromona. It was decided  
to arrange the conference as in for-  
mer years by having a pot-luck  
lunch, prompt at 12 noon, with the  
conference to be held in the United  
Church, Didsbury. Dr. Paul has  
consented to speak to the members  
on the control of cancer and will  
be heard at 20 minutes past 2. It  
was also decided to have the same  
make recipe for all competitors,  
this to be found in the Magic Cook  
Book, page 11, "Sister's Layer  
Cake," and it was also decided to  
discontinue with the icing. Handicraft  
conveners were asked to have  
their exhibits in place before lunch  
with the name of the members of  
the Institute securely attached.

Miss Anderson of Red Deer, the  
home economist for this district,  
has been asked to be the judge and  
give a short talk along this line.  
Mrs. Howes of Millet, the new di-  
rector for district No. 3, will be  
present and it is hoped as many  
members as possible will attend on  
Thursday, June 13.

After a motion to adjourn, Mrs.  
Eckel served tea. The convenor  
wishes to thank Mrs. Eckel for her  
kindness in lending her home for  
the gathering.

The community wish Mr. D.  
Evans, who is a patient in the Dids-  
bury hospital, a speedy recovery.

Mr. Haener, who was also a pa-  
tient in the hospital last week, re-  
turned home on Saturday.

Mr. and Mrs. A.L. Hout were su-  
per guests with Mr. and Mrs. C.  
Wilson of Cromona on Sunday.

FRUIT SUBSIDIES  
OFF TO PRODUCERS

The per pound subsidies which  
have been paid by the Agriculture  
Food Board to producers of straw-  
berries, raspberries, loganberries,  
boysenberries, gooseberries and  
currants when used for jam mak-  
ing and raspberries for canning

## Hail Insurance

The Line Companies will accept Hail Insurance  
in this district subject to the 25% deductible clause  
in the following Townships and ranges at the rates  
quoted:

7% rate in Township 30, Ranges 2, 3, 4 and 5.  
Township 31, Ranges 25 and 5.  
Township 32, Ranges 25, 27, 28, 5.  
8% rate in Township 30, Ranges 26, 27 and 1  
Township 31, Range 3.  
9% rate in Township 30, Ranges 28 and 29.  
Township 31, Ranges 26, 2 and 1.  
Township 32, Range 26.

You mean...

I Own a Beauty Parlor ?

Yes, ma'am! ... comply with everything possible to help  
keep you young. Young in appearance, without the signs of  
back-breaking work and long hours of household chores that used  
to show on a woman's face. And make it Young in spirit, too,  
so that you really enjoy the pleasures of life ... not only because  
you are able to, but also because you have the time to do so.

No doubt you've passed by some "Yes, I'm speaking of your  
own home, and the WORK SAVING ELECTRIC APPLIANCES  
in it — things your grandmother couldn't take advantage of be-  
cause many of them didn't even exist then.

Naturally beauty is important to "generators", as they  
are known to the trade, and they are the most efficient, hard-  
working of labor, who take no nonsense—not even Sundays,  
that it's possible to get a better deal, today the instant  
wanted — say, I'm blushing, that's all I'm talking about.

Guess I'd better stop or you'll be feeling tired just from  
thinking about all the hard work you'd have to do if you didn't  
have me. It's a horrible thought isn't it?

## The Question Of Immigration

CANADA'S FUTURE POLICY in regard to immigration is a subject that is of considerable interest at the present time, both to Canadians and to people of other lands who are interested in the possibilities of making new homes here. The people of Canada hold many divergent views on this subject, but it is generally agreed that no definite plans should be formulated until the present housing and employment problems here are satisfactorily solved, and all veterans and war workers have been re-established. In the past, immigration played an important part in Canada's development. Between the years 1851 and 1911 nearly seven million immigrants were admitted to this country. The peak year was 1913, when 100,000 persons came here from other lands. All these people did not remain permanently. Some later emigrated to the United States, others returned to their native lands, but the majority of them did stay here, and they have had an important part in the industrial and cultural growth of the country.

### Many Wish To Leave Europe

Despatches from abroad tell of the interest of the people in many parts of Europe in the possibilities of making new homes in Canada and other countries where there are opportunities and living space. The devastation of war, followed by acute food shortages and political unrest, have created an increasing desire among many Europeans to get away from all this, and establish themselves in new surroundings. One writer, commenting on this subject, says, "Australia, New Zealand, Canada, South Africa, South America—many citizens cling to these visions of sunny skies, rolling plains, forest lands and untapped mineral soils in regions waiting for more men; countries where confused ideologies can be cast off like soiled garments." In Britain, likewise, there is evidence of much interest in immigration, and reports tell of thousands of people besieging Dominion offices for information.

### Problem Is A Complex One

In France, a recent survey revealed that forty per cent. of the men between the ages of twenty and thirty-eight wished to leave the country. This figure is considered to be very high, since in the past the French have been among the least willing to leave their own land. The percentage of those wishing to leave Central European countries is reported to be higher than that recorded in France, and in Sweden and Denmark there are also many who plan to find new homes abroad. While the governments of the British Dominions and the Latin American states ponder the problems of permitting large-scale immigration, the countries of Europe are likewise concerned at the prospect of being many of their citizens at a time when the population is depleted by war, and men are urgently needed for the task of reconstruction. One observer sums up the situation in these words: "The newer world needs more men for economic expansion or for self-defence. Europe must keep her men if she is merely to survive." The problem is a complex one, and much wisdom and tolerance will be required in dealing with it.

## KIND TO YOUR BUDGET... EASY TO MAKE!

**MAGIC BAKING POWDER**

**Beef Upside-Down Pie**

1 1/2 cups flour  
2 cups Magic Baking Powder  
1 tsp. salt  
1 cup. white pepper  
5 lbs. shortening

1/2 cup milk, or half milk and half water  
1/2 cup sliced onion  
1 can condensed tomato soup  
1 lb. ground raw beef

Mix together flour, baking powder, 1/2 teaspoon salt, celery salt and pepper; add 4 tablespoons shortening and mix in thoroughly with fork. Add milk and stir until blended. Mix remaining two tablespoons shortening, onion, salt, and cook onion until soft. Add tomato soup, remaining 1/2 teaspoon salt and ground meat; bring to boil. Spread baking powder mixture on top of meat mixture and bake in hot oven at 375° F. for about 20 minutes. Turn out upside down on large plate; serve.

MADE IN CANADA

### From Memory

British Artists Draw Pictures Of Bananas, Mushrooms, And Tomatoes

British artists suffered the 178th rebuff of the Royal Academy with loving depictions of bananas, mushrooms, tomatoes, onions and pieces of beef, not to mention over-stuffed mackerel which couldn't have got that way so ordinary as ordinary ration.

The handful of critics gives a preview of the art event of the year, the 129th painting, drawing and sculpture and agree that the artists had been doing still life works from memory. Mushrooms for one thing, are more than 22 in number and adults haven't had bananas for more than seven years.

England's most famous writer, Shakespeare, and Spain's most famous writer, Cervantes, both died on April 23, 1616.

### HEMORRHOIDS

2 Special Remedies by the Makers of Mecca Ointment  
Hemorrhoids are a common ailment. They are caused by a variety of factors, including constipation, straining at stool, and a general weakness of the rectal muscles. The Makers of Mecca Ointment have developed two special remedies to relieve the discomfort and itching associated with hemorrhoids. These remedies are applied directly to the affected area and provide quick relief.

### Harvesting Labor

The United States And Canada Plan Harvesting Exchanges

An international agreement allowing the exchange of harvesting labor and equipment between Canada and the United States will be in effect again this year. The labor departments of both countries have agreed to exchange harvesting crews and equipment. This arrangement is designed to help both countries meet their harvesting needs during the peak season.

Canadian operators, with their harvesting crews and equipment may enter the United States May 15 or later and the latest date for their return has been set at Sept. 1, when Canadian harvesting commences. United States crews and equipment will be permitted to remain in Canada until Dec. 31.

### JUST AS BAD

Toronto's principal corner advance men who are said to avoid fatigue. The trouble is that if you devote your mind to avoiding fatigue, which is bad for you, it is quite likely that you will make the acquaintance of boredom, which will kill you just as fast.

Paris was the largest city in the world for 1,666 years.

## Price Control And Rationing Information

Q—Are the "S" coupons in ration book five used for the purchase of canned sugar?

A—Anytime after May 2 consumers may purchase their first five pounds of canned sugar. The coupons to be used are the regular "S" coupons. In July another five pounds may be purchased.

Q—Must the price of goods be placed on the price tag when they are displayed for sale?

A—The cash price of any goods must be quoted to a prospective buyer, and every price tag, card or label attached to or displayed with any such goods must show the cash price.

Q—How many fluid ounces of maple syrup can I purchase with one sugar-preserves coupon?

A—Up until May 31 each valid sugar-preserves coupon is good for the purchase of two quarts (64 fluid ounces) of maple syrup. After May 31 the coupon value of maple syrup returns to its normal level of 16 fluid ounces per coupon.

Q—Must all most retailers display a chart in their place of business showing the cuts and prices of pork?

A—Yes, all most retailers must display a pork price chart.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your evolving prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

### Food Shortage

There Is Urgent Need For More Home Gardens

Emphasizing the fact that an increased number of home gardens will help to meet the desperate world-wide shortage, A. M. Shaw, chairman of the Food Information Committee, said: "The Victory Gardens of the war years are still needed in the war against want. Once again they can help to win victory over a bitter enemy of humanity—famine."

A quarter of a million Victory Gardens would be a suitable goal for this year, Mr. Shaw said. The food produced in these gardens will make possible increased shipments of staple products such as wheat, meat, cheese and eggs to the hungry people in several countries. The 226,000 home gardens planted in cities and towns across Canada in 1944 produced approximately 120 million pounds of potatoes, carrots, beets, turnips, cabbage, onions and other garden produce.

There is ample seed available on the market, as well as tools and fertilizer to meet the needs of Victory gardeners. A helpful pamphlet entitled "The Wartime Garden" may be obtained free from the Dominion Department of Agriculture, Ottawa.

## SOUTH AFRICAN GOLD

Former Manitoban Drilled The Core That Produced Phenomenal Strike

E. C. Hicks, the former Manitoban who drilled the core for Goldfield South Africa's most phenomenal gold strike in a generation, gives main credit for the discovery to another former Manitoban, Dr. J. A. Bancroft.

Mr. Hicks, who is currently Mr. and Mrs. G. W. Hicks, still live at Hillhurst, Man., made this modest comment on the find which hit the headlines on the world.

Dr. Bancroft, decided where the borehole should be drilled... I only took the core out of the drill and assayed it."

Dr. Bancroft, consulting geologist to the Anglo-American Corporation and formerly a professor of geology at the University of Manitoba, now is in charge of the corporation's drilling activities in this field. Dr. Hicks spends most of his time in the field and is one of the best-known characters in Oshana Rust, in the centre of the Free State goldfield.

The never-ending friendly rivalry between him and rival drillers sometimes is conducted with such fierceness—especially during the last few weeks—that the uninitiated often think the argument must end in blows. But although Mr. Hicks has been accused by his rivals of many sins, he is probably the best-liked man on the new fields and is held in high esteem.

The core he drew from the number one borehole proved to be 100 times richer than the average gold ore on the Witwatersrand field but Mr. Hicks, the man who first knew the sensational news, does not hold a single share in the company. He is too busy seeking another spot where perhaps another sensational strike may be made to join the world rush to buy Orange Free State gold shares.

### Rewarded For Kindness

Young Canadian War Veteran Finds Heir To A Fortune

A young Canadian war veteran, that the law has fallen heir to a fortune of \$100,000, bequeathed by a Maine farmer he helped to save from robbery several years ago.

The 20-year-old Lloyd was visited by a Bangor, Me., lawyer at his radio repair shop in St. John, N.B., and was informed the lawyer had full authority to turn over the assets of the estate of Fred Street. Lloyd was named the sole beneficiary.

The veteran who served in the Canadian Army five years recalled that he and his brother added Street when the 70-year-old, Finnish-born farmer was attacked by a gang of men several years ago. Street gave Lloyd a job on his farm at the time and they became close friends, greatly aided by the fact the younger man could speak Finnish. After leaving Maine, Bud married and later joined the Army. He had not heard from Street for several years, he declared.

About 20,000 different kinds of butterflies are found in North America, while North America has only about 1700.

MAKE MELROSE COFFEE YOUR COFFEE  
IT'S FRIENDLY AND HEARTWARMING, AND SO COMPLETELY SATISFYING  
MELROSE COFFEE  
STRENGTHENING BLEND

"No no, Carrymore! You were supposed to rescue Miss Alor—not the crisp, crunchy, delicious Grape-Nuts Flakes!"  
"Sorry, Mr. De Bill—but when I saw these malty-rich, sweet-as-acorn Post's Grape-Nuts Flakes floating around out here, I guess I got carried away!"  
"Well put 'em down over here near me. I could do with some of those carbohydrates for energy; proteins for muscle; phosphorus for teeth and..."  
"Let's re-take this scene quick and get home for a couple of bowlfuls!"

**Remains In Canada**  
Evacuee From Scotland Has Chosen Canada As Her Home  
An evacuee from Glasgow who won an oratorical contest two years after her arrival without showing a trace of Scottish accent, Frances Anderson Pitelchey is the only "war guest" in Dufferin County, Ont., who has chosen Canada as her home instead of returning to Scotland.  
Frances, whose mother died two years ago, came to Canada in the fall of 1940 when she was 10 years old. Her father, a brother and a sister are still in Glasgow and Mr. Pitelchey hopes to come and see his ex-patriate daughter as soon as travelling facilities permit.  
A patrol leader of Shillburne's Girl Guides, Frances has become proficient at skating and skiing and is progressing with her studies at Shillburne High School.  
A steady correspondence has been kept up between Mr. Pitelchey and Frances' local "father," F. O. Fleming, and the Pitelchey home in Glasgow has often been a haven for Shillburne officers and men in England.

**Guest Conductor**  
Sir Ernest MacMillan Is To Conduct Orchestra In Brazil  
Sir Ernest MacMillan, conductor of the Toronto Symphony Orchestra, will leave early in July for Brazil where he has been invited to appear as guest conductor of one of the foremost symphony orchestras in South America.  
The invitation was arranged through Hon. Jean Desy, Canadian Ambassador to Brazil, who has long held a belief that South Americans should hear music of their northern neighbors.  
The invitation was arranged through Hon. Jean Desy, Canadian Ambassador to Brazil, who has long held a belief that South Americans should hear music of their northern neighbors.

**GEMS OF THOUGHT**  
COURAGE  
Courage is that virtue which chains upon the cause of right—where, true fortitude, loyalty, beauty, friendship, and fidelity may be found.—Sir Thomas Browne.  
Immortal courage fills the human breast and lights the living way of life.—Mary Baker Eddy.  
Where, then, is the invincible man? He whom nothing that is outside the sphere of his moral purpose can dismay.—Rabelais.

**Community Service**  
Newspaper Can Do Much Toward Building Up A District  
The Canadian Printer and Publisher says: "A newspaper is more than a purveyor of news. For one thing it is expected to lead in community welfare—to be alert to the needs of its city, town and district. It is expected to advocate changes for improvement, and to lead local projects. It is expected to be a public relations mouthpiece for the district."  
Many examples of this kind of community leadership have been witnessed in both the daily and weekly newspaper fields. Indeed, Canada is fortunate to have a press of such high standards. Some papers, especially, stand out as examples of what a newspaper can achieve by consistently being alert to opportunities, coupled with the desire to render community service.  
Whenever you find community service rendered you usually find a successful newspaper, either in a small town or larger city.

**WONDER BEACON**  
The first great lighthouse, almost 100 feet high, stood on the Island of Pharos, off the coast of Egypt, and was known as one of the seven wonders of the ancient world.  
Reconnaissance photographs in color during the war showed the slight but vital difference between living foliage and the branches cut for camouflage.

**HAS STRANGE JOB**  
One of the strangest jobs in the world is that of Tom Smith, Norwich, England, who bathes canines, wrapping each customer in a tiny blanket and drying it before a candle.

**BURGESS BATTERIES**  
For Electric Fences  
Guaranteed to last for years. Burgess Batteries are the best for electric fences. They are made of pure lead and are completely maintenance-free. They will last for years and years.

# Capital Ships For The Royal Navy Are Necessary In Order To Maintain Freedom Of The Seas

(By "Trafalgar," well-known British writer on Naval Affairs, in The Navy, London)

WHEN Mr. A. V. Alexander introduced the Navy estimates in the House of Commons, the First Lord emphasized that despite the atomic bomb, and the opinions of some people that the advent of atomic energy has destroyed the need for navies, the freedom and standard of life of the scattered peoples of the British Commonwealth still depend upon the inviolability of the sea communications. This in turn depends wholly upon sea power and upon air power over the sea.

Twice within living memory we had narrowly averted defeat at the hands of an enemy who strove to destroy the communications upon which our existence is based. Twice we were unprepared, and the Royal Navy had provided the shield under which our peacetime deficiencies were made good and our war effort developed.

Never again, said the First Lord, must we run the risk of unpreparedness. A weak Britain was no help to world peace. We were resolved to play our full part as a member of the United Nations organization. Until such time as UN had really come to be "so well established and trusted that the forces required in its support may be steadily reduced," Parliament and the people still "owed the Royal Navy the duty of vigilance" against now and in the years to come so that we may never again be unprepared. It is good to hear that unilateral disarmament in the interests of economy has gone forever. Examined in detail, the First Lord's comprehensive statement encourages reflection upon the future function of the Royal Navy and the types of its ships and weapons in relation to the lessons of the recent war. First and foremost in our minds is:

Up to date this new weapon has only been used against shore targets. May it be that a series of these devastating projectiles dropped near a fleet or on a convoy will cause the destruction of every ship within a certain radius, and thus make it impossible for convoys to sail or warships to protect them? To that question there is no answer until we know the results of the experiments against ships soon to be carried out under the aegis of the United States Government.

Is it possible that an antihull wave will be found to be the atomic bomb? This again cannot be answered, though it is worth noting that the First Lord mentioned that in future a greater proportion of the Navy estimates will be spent in scientific research. As has been said, these are those who predict that the release of atomic energy has rendered surface navies obsolete.

There were others, in their day, who predicted much the same thing with the advent of steam, armored ships, rifled cannon, torpedoes, aircraft, and such things as magnetic and acoustic mines. A counter has been found for every one of these new developments, weapons, and the types of ships have changed as each new menace to their existence has appeared. It is possible that this may alter the case with the atomic bomb.

Years ago, after the last war, Sir Percy Scott was denouncing. What is the use of battleships? What that distinguished officer really meant was that the battleships of that day were obsolete. No one was to answer as to what should replace them in the way of many words. "I should build something better." That is more or less the position today. Our present-day battleships may be obsolete. The atomic bomb and the development of new weapons will probably bring about a radical change in type. But long as we are against another maritime power is possible, so long as the British Empire is dependent upon its sea communications carried on by surface merchant ships, we must have a navy to protect them. "Capital ships," in one form or another, must still form the core of our modern fleet.

That any new capital ships built in the future will cost much money goes without saying. It is unnecessary to refresh and reform old ships over a certain age, just as it is unwise to run a modern car of ancient vintage. But it has to be remembered that between 50 and 80 per cent of the price paid for modern warships goes in wages to the men who build them or produce the materials. To one of their complexity and multitudinous fittings, combined with quality of material and workmanship, the construction of fighting ships produces much greater employment than the building of cargo vessels. Moreover, they are entrusted to the Royal Dockyards or private building firms being about an almost instantaneous increase of activity in the peacetime industrial areas throughout the United Kingdom. It has been calculated that whenever a warship is built about three-quarters of her cost is distributed directly or indirectly in cities, towns and even villages remote from the building area.

It would seem that the very large fleet carried out in the past, probably because they present a huge

and vulnerable target and carry too many eggs in one basket. As the war has proved over and over again, the more aircraft, and the more the long range reconnaissance and striking force for any fleet or squadron, besides the air cover against attack by enemy aircraft.

The recent war saw the production and development of a multitude of weapons, and devices. The atomic, for locating submarines under water, was in existence before 1939. But since the outbreak we have had magnetic and acoustic mine relays in its many forms; acoustic torpedoes which "home" on their targets; radio-directed beams launched from aircraft; the weapons known as V1 and V2; projectiles for anti-aircraft guns provided with fuzes, causing them to burst on coming within a certain distance of their target; and self-propelled rockets of devastating effect fired from landing craft.

Most of these new instruments of warfare are still in their comparative infancy, and nobody can say how they may be developed. If one considers it, a shell fired from a heavy gun in a battleship represents an infinitesimal part of the weight of the gun, the gun turret, the armor, and the machinery necessary to send that shell to its target. Moreover, the 10,000-ton battleship of 12,000 tons exists mainly to place a series of projectiles from eight 16-inch guns on their eventual targets. Rockets though not so accurate as shells, contain their own propellant, have little or no recoil, and require no weighty apparatus for their discharge and alignment. Can it be possible that in the future we may see ships carrying rockets of great range and explosive power fitted with some form of "homing" device fitted to attract them to their targets towards the end of their flight?

One cannot say, but the scientific minds who have produced many new weapons since 1939, the development of more novel and deadlier contrivances seems inevitable. The future of the Royal Navy provides ample food for thought. While leadership, courage and the art of seamanship must still exist, naval officers and men in the years to come will become more and more scientifically-minded.

## Indian Nurses

Three From Canada Are Taking Training In New Zealand

Three North American Indian nurses from Canada are due in New Zealand shortly for military training at New Zealand's St. Helen's hospitals which have an international reputation.

Training has been arranged by the government by Mrs. Barbara A. Robertson, formerly of New Zealand and later president of the Canadian Mothercraft Society.

On their return to Canada, the nurses will specialize in care of Indian mothers and infants.

## REVIEWER'S TROOPS

The Princess Royal, sister of the King and honorary colonel-in-chief of the Canadian 8th (British) regiment, Victoria, inspected the regiment's occupational battalion on the eve of its departure for Canada. She told the men: "I hope I may one day visit the Canadian 8th in their own headquarters in beautiful Victoria."

## WINNEPEG WELCOMES FACTORY-BUILT HOMES TO EASE SHORTAGE

A ready welcome in Winnipeg. These built homes at Montreal, awaiting shipment, stand where a year ago long lines of war planes were parked. Homes can be installed on prepared foundations completely equipped in a week.

**STOPPED ON GANGPLANK—**  
Dressed in Canadian army battle dress, Mrs. Pauline Ann Clarke, 20, was caught on the gangplank of the liner *de France* as she attempted to step away so she could sail for home with her soldier husband.

The smiling wife of Sgt. Anthony H. Clarke, R.C.M.C., is seen at her sister's London home after her unsuccessful attempt.

## Could Be Done

New York Man Has Idea Which Might Be Helped

Reflecting upon the long list of days that America celebrates—Mother's Day, Flag Day, Army Day, Bird Day, and the rest—George Durst of Jamaica is moved to suggest, "What this nation really needs is an Observe-the-Ten-Commandments Week." He argues that, though it might reduce crimes by only 10,000 and cases of petty dishonesty, chiseling, gyping and shady dealings by a mere million or so, would be well worth while. In this period he would have people of all creeds practice genuine goodwill and true consideration of others, and thus, for once in the year, make democracy real. Throughout the week he would have the Commandments printed in the newspapers, for he suspects that not more than 20 per cent of the population can recite more than six or eight of the ten. Gladly, though not very hesitantly, we mention Mr. Durst's proposal. *New York Times Magazine*.

## Indian Navy

Will Soon Receive Three Cruisers From The Royal Navy

Gen. Sir Claude Auchinleck, commander-in-chief in India, has revealed that the Royal Indian Navy will soon receive three six-inch gun cruisers from the Royal Navy. The first of which will be available in 1947. Indian Navy personnel have up to this time had experience only in the management of vessels of the size of sloops and corvettes.

Gen. Auchinleck also stated that India will in due course become self-contained in the matter of air defence. Starting with only one squadron before the war the Royal Indian Air Force now has ten squadrons actively manned by Indians.

He said that no time limit could be set for the process of the Indianization of the army. That the decision to set up an Indian military academy for the training of officers is an indication of the determination to fulfill that pledge. The Indian army is almost fully mechanized.

## ROOSEVELT MEMORIAL

Governeur Square has been given to the British government as a site for the Franklin Roosevelt memorial and a statue of the president will be built there with money contributed by citizens of every country of the commonwealth. The site called the heart of America in London was given by the Duke of Westminster.

## RESEARCH PROJECT

Study one of the most important treasures of the human body, which little is known chemically, to become the subject of a full-time research project at the medical school and Victoria hospital, London. Offered, sponsored by the National Research Council at Ottawa.

Buy War Savings Stamp regularly

## Intends To Keep Lead

Development Of British Aircraft Ahead Of Any Other Country

British plane development during the war, whether bombers or fighters, was ahead of that of any other country, and a representative of the Armstrong-Whitworth Company asserts that it is still ahead and will keep ahead. A tremendous amount of research and experiment is going on.

Designs have been made and satisfied tests made of a new plane which will fly the Atlantic at a speed of 600 miles per hour. This means that it starts from the British Isles at 6 a.m., it will arrive in New York at the same time, 6 a.m., thus keeping pace with the sun.

Another Atlantic liner with a speed up to 400 miles will carry 25 to 30 passengers flying at up to 55,000 feet and will have beds, barge and bunks, and everything for comfort. The final in the world, is the British aircraft industry's slogan. *St. Thomas Times-Journal*.

## Resembles Grapes

Grapefruit So Named Because It Often Grows In Bunches

Grapefruit, the large yellow berry which is as popular as coffee on the common breakfast table, owes its name to the fact that it often grows in bunches resembling grapes. For many years after its introduction into Florida by the Spaniards early in the 16th century, it was left to rot on the ground and was cultivated by the inhabitants only because they prized the round-topped trees with their dark green, shining foliage and its fragrant white flowers as the ornament. Today, however, the fruit is recognized as a wholesome food and is the standard commercially. *Brandon Star*.

## Larger Feet

Survey In United States Indicates That Young Ladies Wear Larger Shoes

The feet of today's young lady are getting bigger and bigger, mainly because of the sort of shoes she wears, the Christy Society of New Jersey, Incorporated, was told by Dr. James C. Morris of Auburn, Maine, in a survey of shoe retailers. A survey of shoe retailers showed the younger set with feet two to three sizes larger than their mothers, he said.

If this continues," he said, "when they reach the age of 25 they will wear size 10 1/2 instead of the 5A their mother used to wear."

## NEW GIANT AIRLINER

The world's biggest liner will be the *Brabazon One*, the giant British airliner. The Bristol Aeroplane Company, the manufacturers, have now received government authority to go ahead with the construction of four machines of this type. *Brabazon One*, which will be the largest and most advanced land plane yet developed by the United Kingdom, is intended for trans-Atlantic service. Cruising speeds will be two hundred and fifty miles per hour and three hundred and fifty miles per hour for the ordinary jet-propelled versions respectively.

## REFLECTS DEAT

A new wallpaper which enables a room to be warmed up in one-third the normal time has been produced by English women research scientists. This remarkable find, which actually reflects the heat from an electric fire instead of absorbing it into the wall. The action is due to the metal decorating which the paper is encased and which prevents heat being lost in the plaster of the walls.

## DEMAND FOR LUMBER

The existing heavy demand for Canadian lumber in the United Kingdom will continue at least until the spring of 1948 and probably for "two years" beyond, R. D. Roe, recently appointed Canadian timber trade commissioner to the United Kingdom, said at Edmonton.

There are about 3,000 species of mosquitoes.

## How Wartime Censorship

# Uncovered Many Surprising Messages By Enemy Agents

(Extracts from an Article by Mary Knight in the Washington Post)

IT WAS a wartime censor—one of the 15,000 snappers who for nearly four years opened your mail, listened to your telephone conversations, and modified with your money, your reading matter, and your radio programs. At first we suffered from a sense of guilt. We were doing a thing most of us hated to do—peering into other people's business. But we soon found how necessary Censorship really was.

That became evident even before Pearl Harbor's ruins ceased smoking. One of the first "Ters" opened in the bathroom-laboratory of an old house, where Censorship immediately took over in Honolulu described in detail the removal of the black. The message, by a devoted route, was headed for Japan.

Censorship was a double-edged weapon. It not only kept information from the enemy but in many cases gave us valuable data about the enemy. A censored cable disclosed a German spy in Havana posing as a dress-goods dealer, receiving money mysteriously through multiple banks. He was arrested. One of the first "Ters" opened in the bathroom-laboratory of an old house, where Censorship immediately took over in Honolulu described in detail the removal of the black. The message, by a devoted route, was headed for Japan.

When Byron Price first went to work as chief censor he had only a borrowed room in Washington. Eventually his organization expanded into 90 buildings throughout the country and with the United Kingdom and Canada set up the first global censorship network.

Every day a million pieces of mail crossed our desks. An mail could be delayed only 24 hours, surfaced mail 18. Correspondents and from the heads of our own and Allied governments were not to be opened, but we had to examine the envelopes carefully, for enemy agents counterfeited even envelopes of the State Department and White House. All mail was checked against a Watch List of persons we knew or suspected were enemies. This list fluctuated between 10,000 and 100,000 names. Such mail received special handling.

Intercepted letters heeded scores of rubber, tin plate and mica. A clue from a censor traced a cargo of zinc on its way to Argentina. It was caught in mid-ocean and turned back. One letter showed that a New York firm was sending 100,000 pounds of milled rap to Sweden to produce hand steel which eventually would reach Germany; another disclosed a German plan to set a million bottles of champagne in Spain and turn bank abroad nearly \$6,000,000.

At the borders of the country we censored papers carried by air and train and passenger. One woman we caught had hidden in a basket of flowers, a message revealing the date of an important ship departure. Technical Operations Division was the intentionally vague name for the laboratory in Washington which tested for codes, ciphers and secret ink. Remote, windowless, its screened entrance admitted only a dozen or so men and women. They "stripped" each letter with acids containing reagents to develop all common secret inks. They searched them with ultraviolet light.

Near the end of the war, they found a new German device whereby an entire page, typewritten in code and photographed, was reduced to tiny letters and hidden in the flap of an envelope or in the centre of a typewritten letter "w" in an otherwise innocent letter. Our laboratory learned to detect and destroy these microscopic messages.

We detected thousands of codes and ciphers of which we thought little until the further attention of the FBI or other intelligence services.

It took the most alert censors to shield secret telegrams, messages. Wearing headphones, the censor sat with pencil in one hand, the other hand on the switch which could instantly cut off either party. Every cable filed in this country was teletyped to the nearest of our 12 cable stations. It was clearly understood that meaning and was certain it was harmless, we stayed it, but it is doubt we double-checked.

A soldier was not allowed to cable his wife "Four pounds. South of orchids." We made it "Four pounds flowering plant" names of flowers hidden in a code. A censor caught "Father is dead. Father is a coward." Back to the cabbages came a query. "Is father dead or de-cayed?" a most accurate.

All told, censorship intercepted nearly 400 secret espionage letters of major importance. Early sketches almost every shift of fabric caused when a barbed-looking person letter from Europe to a woman in a New York hotel showed under the testing strip a long secret ink message beginning:

"Write to go to Aerco. She receives from Mr. Miller money." The recipient, Alice Richardson, had passed the Permuta Travellers' control for New York 3d. Value about six cents) are being printed at double the size of usual postage stamps and likely will cause American addresses. They are on sale at British post offices; many promptly went on to the Watch. June 14.

## Lovely "Homework"

7108

Alice Brooks

A clear definition of that tried and true old "Homework" theme. Dainty and elegant yet easy to digest, it is indeed a gem.

The design is a real delight for the eye and heart. Costs little to make. Pattern 2185 in 1/4 inch.

To start this pattern send twenty cents in coin stamps, must be accompanied by a check for \$1.00. Write: Winthrop Newspaper, 175 N. Duane Avenue, E. Winnipeg, Man. Send all orders payable to: Name, Address and Pattern Number.

BRITISH STAMP ISSUE

Two recent British postage stamps of the 4 1/2d. Value (about five cents) and 24,000,000 of Travellers' control for New York 3d. Value about six cents) are being printed at double the size of usual postage stamps and likely will cause American addresses. They are on sale at British post offices; many promptly went on to the Watch. June 14.

## LOCAL NEWS

Don't forget the Dance sponsored by the Legion and Auxiliary in the Didsbury Opera Theatre on Friday, May 31st. Syncopaters Dance Orchestra. 2c

F.O.G.W. Gabel, son of Mr. and Mrs. H.W. Gabel, arrived home last week from overseas. Before coming to Didsbury F.O. Gabel stopped over at Hamilton and Detroit to visit relatives.

The Anglican service of Morning Prayer will be held at Rugby on Sunday next, June 2nd, at 11 a.m.

Mr. and Mrs. Ronan Paek and family of Raymond were holiday visitors at the home of Mr. and Mrs. Jas. Shields. They renewed acquaintances in the Lone Pine district on Friday and also visited Mrs. Paek's old home and her brothers, the Shields boys.

Miss Pauline Anderson of Hamilton, Ontario, is visiting her uncle, Mr. and Mrs. H. W. Gabel.

Mr. and Mrs. C.R. Westfall announce the engagement of their daughter, Ade Fern, to Mr. Chester R. Hall, son of Mr. and Mrs. W.D. Hall of Calgary. The marriage will take place in Calgary in mid-June.

Mr. and Mrs. Osin Rosenberger of Balzac and Mrs. Frank Pole of Reddick were luncheon guests with Mr. and Mrs. J. W. Bell on Sunday. In the afternoon they visited with Mr. Rosenberger's brother, Ben, who is an invalid in the nursing home of Miss E. Zuidema in East Didsbury.

F.O.G.W. Gabel and Salton Deadrick spent the week end in Calgary.

Rev. and Mrs. A. M. Amacher and family leave this week for Canada, Ontario, where Rev. Amacher has been transferred by the Evangelical Church.

The Grade 11 students and their teacher, Miss Vickroy, have been credited with a \$75 donation to the Swimming Pool Fund as their part in the Lions Club Amateur Night and dance held recently.

A nice selection of Chesterfield Suites at the Builders' Hardware.

Showers have been prevalent in the district this week but a real good rain would be more welcome.

The graduation dance sponsored by the Didsbury Students' Council in the Opera Theatre on Thursday night was well patronized and all report a real enjoyable evening.

May 24th was quiet in Didsbury but both Olds and Carstairs held sports days and many from here visited the neighboring towns.

The Youth For Christ Rally held in Carstairs Monday evening was well attended. The Calgary group presented a splendid program of music, message and song.

Mr. Krause of Calgary visited in town over the week end.

Mr. and Mrs. Ed Ford and family spent the holiday and week end at Selkirk Lake where they have a summer cottage.

—Doctor Ramsey, Chiropractor, (Former Graduate) wishes to extend to you a complete chiropractic service in his Olds office. X-ray service. Specializes in Foot, Stomach, Gout and Eye Troubles. Office open on Monday, Tuesday, Friday and Saturday. 9-91

Miss Grace Ranton returned to Edmonton Monday night after visiting with the past couple of weeks with her parents, Mr. and Mrs. E. G. Ranton.

The Aviation Meeting which was to have been held in Didsbury on June 3rd, has been postponed for a week or so. Watch for future announcement.

Miss Jane Wardrop, nurse-in-training at the Calgary General hospital, arrived home Sunday evening for a three week's holiday.

John Kercher has gone to Calgary where he will work as an apprentice in the carpenter trade.

K. Roy McLean, Ontonotriet, will make his next regular visit to Didsbury at the Rosebud Hotel on Monday, June 3rd, morning only. Monday to Friday consult at 1015 Southam Building, Calgary. 2c

The Local National Clothing Collection committee will again collect used clothing in Didsbury for the needy in Europe and Asia. Mr. Art Heller will again head the Didsbury organization and plans for the drive from June 17 to 29 will be announced later.

Mr. J.V. Berscht was a business visitor to Calgary Tuesday.

Robin Grain Loaders are going to 12-15, in 30 days, so put your order in at Cassidy's.

Mrs. S. Ferguson of Norlong arrived Sunday and is visiting this week with her sister, Mrs. E. Wiggins.

The Tom Collinge family of Acme were Didsbury visitors the first of the week.

Frank Moon arrived from California last week and will again make his home in the district. Mr. Moon lived in the district in the early days and left here in 1929 to reside in California.

Mrs. R.C. Carleton and daughter Maureen are expected to arrive in Calgary from Reddick, Birkshire, this coming Friday.

Mr. and Mrs. H. Dageford announce the engagement of their eldest daughter, Joyce, to Mr. Fred Rodway, youngest son of Mr. and Mrs. W. Rodway, of Red Deer. The wedding will take place at Red Deer in June.

## WESTERDALE NOTES

Hainstock and Westerdale played an exciting game of baseball at Westerdale Sunday afternoon, and Hainstock won 10-9. This was just a practice game.

The first league game of the season will be played at Westerdale on June 2nd between Hartmann and Westerdale.

Mr. and Mrs. Art Grange, Mr. and Mrs. Bert Pross and Lester, all of Didsbury, were Sunday visitors at the home of Mr. and Mrs. Ted Bolton.

We are sorry to hear that Mrs. Frank Herbert is quite ill in a Calgary hospital, and wish her a speedy recovery.

## IN A HURRY ?

After office hours, Alf and Bert lingered in idle chat. Then, with a sudden glance at his watch, Alf grabbed his hat.

"I must rush off," he explained. "I've got an appointment."  
"Who's the girl?" chaffed Bert. "Is it as important as all that?"  
"It is—and it's no girl. It's a fellow to whom I owe a favor."  
"Where are you meeting him?"  
"Meeting him nothing! He's coming here!"
